- If you need additional information - See PN242 - CA Handgun Proof Of Residency -**

**All Purchasers Must Complete a "Gun Sale Tracker"**  
**- See Handgun Sales Counter -**

**Remember - we can put up to a 24 hour hold on any firearm while you collect your documents and get ready for the purchase.**

**Why, 11 days till pick up?** California requires a waiting period of 10x - 24 hour periods (10 day cooling off period) before you can pick up your gun. This waiting period is down to the second. We keep all firearms secured until the 11th day - thus eliminating the time of day issue. All firearms are available for pickup 11 days from purchase. Remember - your registration is only good for 30x - 24 hour periods - you must pick your gun up before the 30th day from registration.
